www.marcrestmfg.com

Excellence in small bale packaging systems

Our STRENGTH is in our KNOTS. The Bale Baron uses high strength plastic twine and a double knot system to tightly bundle its packs. The most efficient binding option available, twine is strong, cost effective and easy to cut with a pocket knife. Tying this twine is the Raspe low maintenance knoter system. Increasing your productivity, our knoter system only requires one greasing per year. This means less time servicing and more time in the field.

Excellence in small bale packaging systems

Our STRENGTH is in our KNOTS. The Bale Baron uses high strength plastic twine and a double knot system to tightly bundle its packs. The most efficient binding option available, twine is strong, cost effective and easy to cut with a pocket knife. Tying this twine is the Rassepo low maintenance knotter system. Increasing your productivity, our knotter system only requires one greasing per year. This means less time servicing and more time in the field.

BALEKNIFE

Available models:
 BK48 - fits up to 48" bales
 BK60 - fits up to 60" bales
 BK72 - fits up to 72" bales

Maximize your productivity, reduce costs, and save valuable time with a Bale Knife from HLA Attachments.

Available in 3 sizes, the Bale Knife uses a serrated cutting edge to easily cut through your 4, 5, and 6 foot silage and hay bales. A proprietary system grabs the wrap and bale netting holding it securely as the bale is sliced and drops free.

Contact HLA Attachments for more information.
