You already know how weather-dependent making premium hay can be. It's the Hay Handler's job to work on your side, making the most of the haying windows the weather permits you. With it, you can merge invert, fluff or windrow your cut swaths.

But what sets the Hay Handler apart is the ease with which it handles hay pickup. With it, you can pick up a 10' wide swath of hay that has been laid out by your discbine and reduce its drying time. With the hay handler, you can mow in the morning and do haylage in the evening.

# I HELP FARMERS GET FARM LOANS

My name's Andre Ouimet. My grandpa was an apple farmer. One season he had a bad harvest. The bank he was loyal to for years turned its back on him. He lost the farm and moved our family to the city. To this day, my dad still chokes up as he tells the story of how the bank seized our ancestral home. I know how hard farmers work. I know how hard my grandpa worked. It was NOT his fault. He needed a temporary helping hand and no one was there to help him. Because of my family history, I wanted to do something to help farmers, so I became a licensed Mortgage Agent with

**EXPERT MORTGAGE.** Now I can help farmers **ACROSS ONTARIO.** I can access other lenders as well as bank lenders. I specialize in agricultural lending. I have over 300 private lenders as well as bank lenders to talk to for your mortgage needs.

**Even if you have BAD CREDIT & NO PROOF OF INCOME, I can still help you**

## I REPRESENT OVER 300 LENDERS

Many provide 1st, 2nd and 3rd mortgages **even with:**

- Horrible Credit
- Mortgage Arrears
- Self-Employed
- Bankruptcy
- Property Tax Arrears
- Pension & Disability
- Unemployed
- Power of Sale

### FARM OWNERS!

## Call NOW for FAST, EASY CASH!

## CALL ME EVEN IF EVERYONE ELSE HAS SAID NO!

With over 300 lenders at my disposal I can get you a mortgage even with...

- Bad credit
- Poor cashflow
- Power of sale
- Mortgage arrears
- Tax arrears
- No financials

Most banks underwrite loans using standard commercial lending guidelines that don't make any sense for farms. Coming from a farm family, I understand the farming community.

## HFL FABRICATING

### BIOMASS BUILDER

The Biomass Builder Row unit provides an economical way to add cover crops to your side dress application, for a timely, consistent emergence of your cover crops. It is also being used in relay cropping of wheat and soybeans.

Typical 28% application with coulters and knife. Change 28% knife to a dry fertilizer knife or to a 3rd row of cover crop. 2 or 3 rows of cover crop at changeable row widths. Adjustable depth control. Press wheels to preserve moisture in the summer. 30" clearance height.

- Various applications: ex. strip till freshening.
- Relay Cropping wheat and soybeans.

## THE FUTURE OF SILO FILLING

- All hydraulic drive, operating from blower tractor
- Easy transport and setup

**PRE-BOOK FOR  
SPRING 2023**

**DumpDek establishes a new normal  
for forage hauling speed and efficiency.**

When filling silo, DumpDek's main unit keeps forage moving continuously and non-stop, while the dumping deck allows you to unload trucks or trailers and return to the field without waiting.

*...a fence builder's dream.*

Since 2007 Montana Post Driver has been revolutionizing the fencing industry. As fence builders ourselves we believed there had to be something better in post drivers. We invented the hydraulic hammer post driver. Since then, we have refined and improved our post drivers.

TRAIL BEHIND

IN-FIELD PICKUP

## SMALL BALES. BIG PRODUCTION.

The BALE BARON® from Marcrest eliminates manual handling, extra time and additional labour costs associated with producing high-demand small square bales.

By packaging up to 1000 bales per hour into bundles of 21 bales, the Bale Baron is the fastest small bale accumulator on the market. The Bale Baron bundle is the most versatile bundle size, no matter how you stack it or handle it. Optimize freight costs, whether you sell by the bale or by the ton.

Trail-behind-baler and In-field Pick-up units come in both economy and high-capacity models.

**Heliodor 9**

**Rubin 10**

## Heliodor 9

With 20" discs and a working depth of 4", the Heliodor 9 can turn a ploughed or lumpy field into a seedbed in a single pass or make a harvested corn field planter-ready with one fall and one spring pass.

## Rubin 10

The superior clearance and unique symmetrical arrangement of 25" discs ensures the Rubin 10 can work in organic matter to a depth of 6" without drifting. That saves fuel and optimizes GPS guidance.

**Call us for more information. Check out the new and used LEMKEN equipment on our lot today. It won't last long.**

## FRAUD TIP OF THE MONTH

**PROTECT YOURSELF FROM FRAUD**  
IF IT SOUNDS TOO GOOD TO BE TRUE – IT PROBABLY IS!

### CERTIFIED CHEQUES

**You might think this is acceptable, but it's not. Never accept a certified cheque as payment. These can be manually produced. Scammers often "accidentally" send too much money, tell the recipient to keep the cheque and then send them the balance (sometimes to a third party).**

Remember, never provide too much information. Avoid giving credit card numbers over the phone or text; age, address, family member info, or marital status. Use cash whenever possible. Test your buyer or seller to see if they actually know about the product they are buying or selling. Local is best. Trust your gut, but research who you are dealing with.
