**Box Blade**

**Straight Blade**

**Minimum Road  
Transfer Width**

**Reverse Box  
Blade**

The SnowWing's design allows you to handily change from a traditional box blade to a straight blade, with the added bonus of extra clearing width. But it doesn't stop there: the endplates are hydraulically-controlled and equipped with industry-proven rotary actuators, giving you rugged and limitless control within the massive 180 degree rotation. This means you can use your blade on an angle with one end open and the other parallel to the direction you are driving. This allows you to get closer to buildings and parking stones with less chance of damage and better clearing results. With the endplates in their full open position, the blade can be used as a reverse box blade allowing you to back drag snow for full clearing even in the tightest of spaces.

# REIST INDUSTRIES

*Innovation Working For You*

## Snow Blowers

...for big-time power to clear more, faster!

REIST Two-Stage Snow Blowers built to work with heavy-duty equipment

- 3 industrial-duty models for work with heavy equipment
- Heavy duty augers are driven through self-deicing sprockets
- REIST purpose-built manufactured gear box for increased durability and reliability
- Large diameter 6 blade fan
- Optional discharge heads and telescoping chutes
- Available in 9 ft. & 10 ft. widths with many factory-installed options

## Snow Throwers

...for a big throw on small machines!

REIST Single-Stage Snow Throwers draw 20% less power than 2-stage

- High-efficiency design for smaller tractors, skid steers and telehandlers (>15 HP)
- Models for PTO and hydraulic drives
- Auger diameters 16" to 30"
- Cutting widths from 48" to 108"

Meteor snowblowers are built to get your work off the ground with reliable performance and high capacity design.

Made in Canada, the Meteor is available in a wide range of models to fit 12 HP compact tractors right up to 200 HP farm tractors.

Built with a 5-blade fan, high tensile steel auger flighting, and a rugged gear box, Meteor snowblowers chew through winter with ease.

Contact your local dealer for more information.

# MAR-LLO

## Fabricating

519-335-4135 • mar-llo@mwpol.ca

**BearClaw**

**EASYVEY**

**Hay Handler**

### THE LATEST IN BALE SHREDDING

The all-new BearClaw Bale Processor is a bale shredder and blower unlike other bale processors. One of the BearClaw's most note-worthy features is it's absence of knives. No more sharpening knives when you should be in your barn bedding your cows. The BearClaw utilizes a nifty hook and screen setup to provide a long lasting shredding system.

**BearClaw**  
BALE PROCESSOR

### Hay Handler

You already know how weather-dependent making premium hay can be. It's the Hay Handler's job to work on your side, making the most of the haying windows the weather permits you. With it, you can merge invert, fluff or windrow your cut swaths.

But what sets the Hay Handler apart is the ease with which it handles hay pickup. With it, you can pick up a 10' wide swath of hay that has been laid out by your discbine and reduce it's drying time. With the hay handler, you can mow in the morning and do haylage in the evening.

**DON'T BE DISAPPOINTED... PRE-ORDER YOUR CONVEYOR EARLY!**

### Seed Transport Tube Conveyor

Gently handles fragile soybeans, peas, seeds and other delicate crops

- Model 8"/26' & 8"/31' are standard sizes
- New product line, models 10"/31' & 10"/41'
- Hopper height adjustable to fit gravity wagons or tote bags
- 10" wide crescent top belting runs inside 8" tube
- Conveys materials up to a 30° incline
- 3 stage telescopic down-spout adds to your filling convenience
- Hydraulic or electric powered
- Other sizes made to order

**OPTIONS AVAILABLE - ELECTRIC DRIVE, WINCH WITH OPTIONAL BRAKE, 15" TIRES**

# SMALL ENGINE REPAIRS NEW AND USED SALES

## SNOW EX PLOW, SALTERS & SANDERS

## SNOW THROWER

Whether the forecast calls for a dusting of dry powder or seep, wet drifts, you'll be ready to dig out with the BCS Snow Thrower attachment. Your first impression of the BCS snow thrower in action will be that it's misnamed it should be called a snow cannon!

An incredibly fast auger/impeller speed of 1218 revolutions per minute, in combination with all-gear-drive, means that performance exceeds expectations in both dry and wet snow conditions.

Features include:

- Wide, adjustable skids allow for six height settings from 0" for smooth surfaces to 2" for gravel surfaces and uneven walkways.
- Stainless steel discharge chute conducts cold quirky and never rusts.

**Throws further than most blowers...  
no belt slippage/replacing.

# TAKE CONTROL EVERY SEASON.

Discover a much needed reprieve from the elements inside Kubota's M6 Series cab thanks to standard heating and both front and rear wipers. It's one of the largest cabs in its class too. And with up to 141 available horsepower, this tractor was built to get the job done, and with dramatically cleaner emissions. This winter, find out what it feels like to be in the driver's seat.

MASSEY FERGUSON

## BACK BY POPULAR DEMAND.

You wanted a small tractor with a mid PTO for more versatility on operations and implements. A tractor that can do more, because it's made to handle more. Massey Ferguson® responded by bringing back a versatile workhorse, the Massey Ferguson 7525 compact tractor. This one's built especially for people like you — a new generation of landowners who want a tractor that's as hardworking and no-nonsense as they are. Come check out the MF7525 today.

# MTZ Big Tractors No Computers No DEF

The MTZ Factory, located in Minsk, Belarus, is one of world's largest tractor manufacturers, serving Canadian farmers since 1968. The factory produces heavy, rugged and reliable tractors, with no computers, no complicated electronics, no DEF.

Over 70% of service calls on new tractors sold today are related to sensors, emissions, computer error codes and electronics. Dealers are constantly paying for upgrading their repair equipment, and those costs are passed to farmers as higher service bills. MTZ tractors, with up to 5 yrs power train warranty, offer simple, reliable mechanical design that can be maintained with most basic tools. Therefore they are much more economical to own and operate for many years.

# Best Wishes for the New Year!

## "I HELP FARMERS GET FARM LOANS"

My name is **Elizabeth Gnoinski, Mortgage Agent**. My parents owned a dairy farm in Ontario. My brothers and sisters all helped out with the farm. My dad got sick, the bank refused to give us time to sort out our finances, and we lost our farm through no fault of our own. **I will never forget that!**

I grew up and had a hobby farm. It was a tough go with brutal cold and snowy winters and a short growing season.

### I UNDERSTAND THE CHALLENGES YOU FACE!

I became a licenced mortgage agent with **Expert Mortgage** so that I could help farmers across Ontario.

I specialize in **AGRICULTURAL LENDING**. With over 400 private lenders to back me combined with my farming background, **I work hard for you!**

Rates from **2.10%**  
As of November 2016 OAC  
- Based on 5 year term  
**35 years**  
Amortization on non working farms

Even if you have **BAD CREDIT & NO PROOF OF INCOME**, I can still help you.  
I do **RESIDENTIAL, COMMERCIAL & CONSTRUCTION LOANS** too!

## I REPRESENT OVER 400 LENDERS

Many provide 1st, 2nd and 3rd mortgages **even** with:

- Horrible Credit
- Bankruptcy
- Unemployed
- Mortgage Arrears
- Property Tax Arrears
- Power of Sale
- Self-Employed
- Pension & Disability

Does Your bank offer payments **THIS LOW?**

Mortgage Amount	Monthly Payment	Bi-weekly Payment
\$200,000	\$677.03	\$312.33
\$220,000	\$744.73	\$343.56
\$240,000	\$812.44	\$374.79
\$260,000	\$880.14	\$406.02
\$280,000	\$947.84	\$437.26
\$300,000	\$1,015.55	\$468.49
\$320,000	\$1,083.25	\$499.72
\$340,000	\$1,150.95	\$530.95
\$360,000	\$1,218.65	\$562.19
\$380,000	\$1,286.36	\$593.42
\$400,000	\$1,354.06	\$624.65

Ontario Premier Kathleen Wynne and Larry Davis from OFA with my daughter, 4H Beef Club Show Paris Fair 2013

**CALL LIZ NOW**  
to put your mind at ease

As of November 2016 OAC

Call me **7 DAYS A WEEK** for a confidential consultation  
Toll Free Across Ontario **1-855-755-1904** or Cell **519-755-1904**  
Or send me a question online at [liz@lizthewiz.com](mailto:liz@lizthewiz.com) Visit [www.LizTheWiz.com](http://www.LizTheWiz.com)

Most banks underwrite loans using standard commercial lending guidelines that don't make any sense for farms. Being a Specialist in farm loans, I understand the farming community.

Talk to me if you'd like to ...

- Buy more land or new equipment
- Repair or construct new buildings
- Refinance your existing debts
- Buy quota

I can offer qualified farmers ...

- Up to 80% of **FULL** farm value
- Up to 30 year amortization
- Operating lines of credit

### CALL ME EVEN IF EVERYONE ELSE HAS SAID NO!

With over 400 lenders at my disposal I can get you a mortgage even with...

- **Bad credit**
- **Poor cashflow**
- **Power of sale**
- **Mortgage arrears**
- **Tax arrears**
- **No financials**

# Landini

THE 4 SERIES is the very latest addition to the Landini tractor family. Designed to replace several heritage series tractor lines with a single, more versatile range, the 4 Series fully revolutionizes Landini's low- & medium-power segment.

SIX MODELS ranging from 64 to 107 hp, and are powered by Deutz 4-cylinder engines that meet the EPA's strict Tier 4i emissions requirements.

[www.landini.ca](http://www.landini.ca)

#### 12X12 SHUTTLE AND POWERSHIFT

The 4 Series tractors feature a versatile, modular 12x12 transmission with four synchronized gears in three ranges.

#### DELUXE CAB

Designed to offer best-in-class operator comfort, the cab of the 4 Series tractors has an automotive-style interior with ergonomically arranged controls providing a safe and stress-free working environment for long hours in the field.

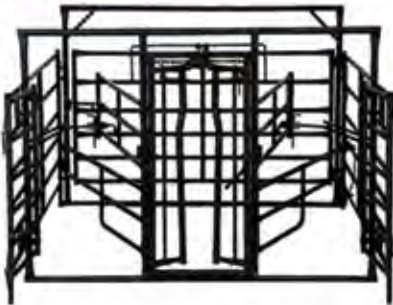

#### HIGH PERFORMANCE HYDRAULICS

Featuring two gear-type pumps, one feeding the steering system and the other operating all hydraulic functions, the hydraulic system in the 4 Series has the braun to handle heavy demands.

# X5 SERIES

- ▶ X5.30
- ▶ X5.40
- ▶ X5.50

Built for versatility these powerful machines excel in operations such as hay, livestock, small scale crop production, specialty applications, loader work and the list goes on. Boasting a powerful line of efficient Perkins 4 cylinder diesel engines, the new X5 range includes 3 models ranging from 95 - 113 maximum engine horsepower. The X5 series raises the bar for what a utility tractor should be.

AGRI "NO ROT DOOR" ON THE MARKET**

**STANDARD SIZES AVAILABLE IN-STOCK  
FOR PICK UP OR IMMEDIATE DELIVERY**

**NEW!!**

Now offering custom doors in a wide choice of panel styles for an enhanced appearance. Ideal for homes, equestrian facilities, cottages, etc.!!

Preframed no rot door is an insulated interior or exterior door made of 100% Cellular Vinyl PVC engineered to resist extreme weather conditions. It cuts like wood – nails better than wood, won't split or crack. Strong, durable and termite proof. Moisture resistant with no sanding or prep work necessary.

Low maintenance, factory finished and with door lock prep.

Left or right hand inswing or outswing with stainless steel hinges. 9 lite window, clear glass window, or solid slab.

Standard or handicap sill available.

## TOP TIPS FOR INCREASING FARM VALUE BEFORE LISTING

*First impressions are crucial for getting the best price when selling your farm*

By Jennifer Jackson, Farms.com

Improving property appearance is everything when selling a farm for top dollar, according to Ontario real estate agents.

You need to make a good first impression when selling a farm, according to JoAnne Baines, sales representative with Sutton Group-Select Realty Inc.

"Pristine farms always get pristine dollars," says Baines. "If the farm is looking rough, it will be reflected in the price."

These thoughts are echoed by Phil Spoelstra, broker of record for the Farm Ontario team, within Remax Centre City.

"The appearance of a well-managed farm has a lot of value," says Spoelstra. "It's a very digital world now, and many farm buyers' first impression of your farm is online. Having the farm in great shape for pictures and media prior to the sale is very important."

For Baines, this means decluttering the farmyard and buildings; the more organized the operation is, the better. Chaos and rusty equipment will not create a good impression for the buyer.

Buyers also like to see healthy crops, Baines adds. A good crop in the field can impress prospective buyers.

To prepare a farm for sale, consider landscaping and deep-cleaning, according to Spoelstra.

Regrade gravel laneways and dispose of any garbage and scrap metal. Money from the scrap metal can be invested into the cleanup, he suggests.

Livestock farmers who hire professional wash crews for barns typically see the return reflected in the farm sale, says Spoelstra.

Spoelstra spends several weeks prior to each listing helping each client ensure the farm is in good shape. He finds this prep time is crucial, as those who prepare typically sell faster – and for a higher price.

You want to "build trust . . . that the property has been well-maintained and cared for," says Spoelstra.

Baines believes there are other factors sellers should consider in addition to appearance.

"If there is tiling (in the fields), there will definitely be a premium. It may be something (sellers want to consider) installing, she says. Buyers will walk fields; it is important to fix or replace any problem areas or broken tiles.

Bush on the property may also be of value, in terms of logging revenue and opening up more field acreage. Baines warns any logging should be done professionally,

At the end of the day "we always tell sellers to look at your farm through the eyes of a buyer. Try to identify and take care of (any) issues they would see," says Spoelstra.
