# Landini

**THE 4 SERIES** is the very latest addition to the Landini tractor family. Designed to replace several heritage series tractor lines with a single, more versatile range, the 4 Series fully revolutionizes Landini's low- & medum-power segment.

**SIX MODELS** ranging from 64 to 107 hp, and are powered by Deutz 4-cylinder engines that meet the EPA's strict Tier 4i emissions requirements.

[www.landini.ca](http://www.landini.ca)

#### 12X12 SHUTTLE AND POWERSHIFT

The 4 Series tractors feature a versatile, modular 12x12 transmission with four synchronized gears in three ranges

#### DELUXE CAB

Designed to offer best-in-class operator comfort, the cab of the 4 Series tractors has an automotive-style interior with ergonomically arranged controls providing a safe and stress-free working environment for long hours in the field

#### HIGH PERFORMANCE HYDRAULICS

Featuring two gear-type pumps, one feeding the steering system and the other operating all hydraulic functions, the hydraulic system in the 4 Series has the braun to handle heavy demands.

# YOU'LL RUN OUT OF JOBS BEFORE IT RUNS OUT OF MUSCLE.

We hear it all the time. You want a tractor that has the size, comfort and simplicity of a compact, but with additional muscle to handle bigger jobs like mowing and loader work. The Massey Ferguson® 2700E Series is the perfect fit. It's ideal for large properties, hobby farms, even landscaping businesses. Solid, stable and boasting a tight turning radius, these versatile tractors will get after some of your hardest jobs around the yard or barn.

## X5 SERIES

- ▶ X5.30
- ▶ X5.40
- ▶ X5.50

Built for versatility these powerful machines excel in operations such as hay, livestock, small scale crop production, specialty applications, loader work and the list goes on. Boasting a powerful line of efficient Perkins 4 cylinder diesel engines, the new X5 range includes 3 models ranging from 95 - 113 maximum engine horsepower. The X5 series raises the bar for what a utility tractor should be.

# "I HELP FARMERS GET FARM LOANS"

My name is Elizabeth Gnoinski, Mortgage Agent. My parents owned a dairy farm in Ontario. My brothers and sisters all helped out with the farm. My dad got sick, the bank refused to give us time to sort out our finances, and we lost our farm through no fault of our own. **I will never forget that!**

I grew up and had a hobby farm. It was a tough go with brutal cold and snowy winters and a short growing season.

## I UNDERSTAND THE CHALLENGES YOU FACE!

I became a licenced mortgage agent with **Expert Mortgage** so that I could help farmers across Ontario.

I specialize in **AGRICULTURAL LENDING**. With over 400 private lenders to back me combined with my farming background, **I work hard for you!**

**Rates from 2.05%**  
Amortization up to 35 years!

**Even if you have BAD CREDIT & NO PROOF OF INCOME, I can still help you. I do RESIDENTIAL, COMMERCIAL & CONSTRUCTION LOANS too!**

## I REPRESENT OVER 400 LENDERS

Many provide 1st, 2nd and 3rd mortgages **even** with:

- Horrible Credit
- Bankruptcy
- Unemployed
- Mortgage Arrears
- Property Tax Arrears
- Power of Sale
- Self-Employed
- Pension & Disability

## Hay Handler

You already know how weather-dependent making premium hay can be. It's the Hay Handler's job to work on your side, making the most of the haying windows the weather permits you. With it, you can merge invert, fluff or windrow your cut swaths.

But what sets the Hay Handler apart is the ease with which it handles hay pickup. With it, you can pick up a 10' wide swath of hay that has been laid out by your discbine and reduce it's drying time. With the hay handler, you can mow in the morning and do haylage in the evening.

## TURNING PRECISION AGRICULTURE POTENTIAL INTO PROFIT!

The 3rd annual Precision Agriculture Conference and Ag Tech Showcase will bring together more than 300 precision ag enthusiasts - international expert speakers, precision agriculture businesses, agronomists and leading farmers to share and learn how to harvest the value of new technologies on the farm.

A full roster of expert speakers and breakout presentation sessions cover a wide range of topics including new sensors, managing big farm data, updates on software and agronomic research that will assist agronomists and farmers to realize the profit potential of each management zone.

The popular Farmer Panel will be an important main session with speakers sharing real on farm experiences and innovators sharing what worked and what did not work.
