Dual PEX-Flex is a pre-installed pipe complete with bonded polyurethane foam insulation and smooth polyethylene jacket. It is ideally suited for hydronic heating applications including outdoor wood furnaces. Supplied in coils, this seamless 2-in-1* (supply & return bundled together) pipe system is economical, simple to install and highly effective even in harsh soil conditions.

PEX-FLEX

- **A Whole Other Layer - "SMART MEMBRANE"**
This diffusion barrier eliminates aging in the foam
- **Best Insulation Material on the Market**
Closed Cell, Eco-Friendly Polyurethane foam
- **Increased Flow Capacity**
Full 1" ID carrier pipes = more BTU's delivered
- **World's Largest Manufacturer**

MTZ Big Tractors No Computers No DEF

The MTZ Factory, located in Minsk, Belarus, is one of world's largest tractor manufacturers, serving Canadian farmers since 1968. The factory produces heavy, rugged and reliable tractors, with no computers, no complicated electronics, no DEF.

Over 70% of service calls on new tractors sold today are related to sensors, emissions, computer error codes and electronics. Dealers are constantly paying for upgrading their repair equipment, and those costs are passed to farmers as higher service bills. MTZ tractors, with up to 5 yrs power train warranty, offer simple, reliable mechanical design that can be maintained with most basic tools. Therefore they are much more economical to own and operate for many years.

THE BEST SELLING / PERFORMING AGRI "NO ROT DOOR" ON THE MARKET

STANDARD SIZES AVAILABLE IN-STOCK FOR PICK UP OR IMMEDIATE DELIVERY

NEW!!

Now offering custom doors in a wide choice of panel styles for an enhanced appearance. Ideal for homes, equestrian facilities, cottages, etc.!!

Preframed no rot door is an insulated interior or exterior door made of 100% Cellular Vinyl PVC engineered to resist extreme weather conditions. It cuts like wood – nails better than wood, won't split or crack. Strong, durable and termite proof. Moisture resistant with no sanding or prep work necessary.

Low maintenance, factory finished and with door lock prep.

Left or right hand inswing or outswing with stainless steel hinges. 9 lite window, clear glass window, or solid slab.

Standard or handicap sill available.

"I HELP FARMERS GET FARM LOANS"

My name is Elizabeth Gnoinski, Mortgage Agent. My parents owned a dairy farm in Ontario. My brothers and sisters all helped out with the farm. My dad got sick, the bank refused to give us time to sort out our finances, and we lost our farm through no fault of our own. I will never forget that!

I grew up and had a hobby farm. It was a tough go with brutal cold and snowy winters and a short growing season.

I UNDERSTAND THE CHALLENGES YOU FACE!

I became a licenced mortgage agent with **Expert Mortgage** so that I could help farmers across Ontario.

I specialize in **AGRICULTURAL LENDING**. With over 400 private lenders to back me combined with my farming background, **I work hard for you!**

Rates from **2.10%**
As of December 2016 OAC
— Based on 5 year term
35 years
Amortization on non working farms

Even if you have **BAD CREDIT & NO PROOF OF INCOME**, I can still help you.
I do RESIDENTIAL, COMMERCIAL & CONSTRUCTION LOANS too!

I REPRESENT OVER 400 LENDERS

Many provide 1st, 2nd and 3rd mortgages **even** with:

- Horrible Credit
- Bankruptcy
- Unemployed
- Mortgage Arrears
- Property Tax Arrears
- Power of Sale
- Self-Employed
- Pension & Disability

Does Your bank offer payments **THIS LOW?**

Most banks underwrite loans using standard commercial lending guidelines that don't make any sense for farms. Being a Specialist in farm loans, I understand the farming community.

Talk to me if you'd like to ...

- Buy more land or new equipment
- Repair or construct new buildings
- Refinance your existing debts
- Buy quota

I can offer qualified farmers ...

- Up to 80% of **FULL** farm value
- Up to 30 year amortization
- Operating lines of credit

CALL ME EVEN IF EVERYONE ELSE HAS SAID NO!

With over 400 lenders at my disposal I can get you a mortgage even with...

- **Bad credit**
- **Poor cashflow**
- **Power of sale**
- **Mortgage arrears**
- **Tax arrears**
- **No financials**

BearClaw

EASYVEY

Hay Handler

THE LATEST IN BALE SHREDDING

The all-new BearClaw Bale Processor is a bale shredder and blower unlike other bale processors. One of the BearClaw's most note-worthy features is it's absence of knives. No more sharpening knives when you should be in your barn bedding your cows. The BearClaw utilizes a nifty hook and screen setup to provide a long lasting shredding system.

BearClaw
SHEAR • PUNCH • SORT

Hay Handler

You already know how weather-dependent making premium hay can be. It's the Hay Handler's job to work on your side, making the most of the haying windows the weather permits you. With it, you can merge invert, fluff or windrow your cut swaths.

But what sets the Hay Handler apart is the ease with which it handles hay pickup. With it, you can pick up a 10' wide swath of hay that has been laid out by your discbine and reduce it's drying time. With the hay handler, you can mow in the morning and do haylage in the evening.

DON'T BE DISAPPOINTED... PRE-ORDER YOUR CONVEYOR EARLY!

Seed Transport Tube Conveyor

Gently handles fragile soybeans, peas, seeds and other delicate crops

- Model 8"/26' & 8"/31' are standard sizes
- New product line, models 10"/31' & 10"/41'
- Hopper height adjustable to fit gravity wagons or tote bags
- 10" wide crescent top belting runs inside 8" tube
- Conveys materials up to a 30° incline
- 3 stage telescopic down-spout adds to your filling convenience
- Hydraulic or electric powered
- Other sizes made to order

Kubota

**TOUGH WINTER AHEAD?
WE WOULDN'T HAVE IT
ANY OTHER WAY.**

Exceptional comfort and an easy to maintain Kubota Tier IV Diesel engine combine for an impressive piece of equipment in Kubota's SSV Series. New side lights expand the operator's visibility on the job site, and the roll up door and wide operator area make for a more alert and productive work environment during those long cold jobs. All of a sudden, winter doesn't seem so bad.

On the SSV Series.

The SnowWing's design allows you to handily change from a traditional box blade to a straight blade, with the added bonus of extra clearing width. But it doesn't stop there: the endplates are hydraulically-controlled and equipped with industry-proven rotary actuators, giving you rugged and limitless control within the massive 180 degree rotation. This allows you to get closer to buildings and parking stones with less chance of damage and better clearing results. With the endplates in their full open position, the blade can be used as a reverse box blade allowing you to back drag snow for full clearing even in the tightest of spaces.

2051 BRUCE RD. 19, R.R. 1, CHESLEY, ON N0G 1L0

The Bale Boss R is built with the same versatility and quality you've come to expect from the Bale Boss family. It holds one round bale up to 4 feet wide and up to 6 feet in diameter.

The Boss R has a self loading arm to easily load round bales into the shredding chamber. Equipped with spikes, the apron chain easily grabs the bale turning it against the restrictor bars as the flail rotor pulls apart the bale.

PROCESSORS & SPREADERS

Designed with an integrated guillotine endgate, the NITRO retains it's box even with the beaters removed leaving behind a fully functional self unloading trailer with a hydraulic endgate and live floor.

The Nitro Can be used to stockpile nutrients in the field throughout the year or to haul forage from the field to the pit for storage. Whether its in the field or around the farm the hydraulic apron easily unloads material.

The Snow Edge

There are currently a number of plastic edges on the market which bolt directly to the bottom of the loader bucket. Unfortunately for most small tractor owners, their buckets were not manufactured with the required mounting holes. Our new clamp on **Snow Edge** now enables these machines to remove snow and sleet while protecting and preserving concrete surfaces and asphalt seal coats. Our wear edges are formed from a high density recycled plastic that is durable as well as inexpensive to replace.

- * Protects concrete surfaces and asphalt seal coats.
- * Clamps on to loader buckets in just seconds.
- * Push, scrape, scoop, and dump snow and sleet.
- * Faster and easier than a walk behind snow blower.
- * Extends bucket depth & snow capacity.
- * Available in 48 inch and 60 inch sizes.

VICTORIAN SERIES ROOFING

www.victorianseries.com

Tile Appearance Metal Roof

- Full length sheet, considerable less waste and less joints to leak.
- Most common residential colours with textured no glare finish in stock.

Standing Seam Metal Roof

Enjoy benefits of a portable rollformer

- Considerable less waste, roll out what and when you need it.
- No loading, unloading, transport of finished product damage.
- No need to order extra product to be sure to have enough to do the job.
- Cross cut angle saw for various angles on hips and valleys etc.
- 16" Coverage with no external screws.
- We will roll it off for do it your self or professional contractors.
- No shipping and packaging and waste to dispose.

Matching trims and accessories made in house. Manufactured in central Ontario using Canadian coil stock. 40 year warranty on paint, Lifetime warranty on steel. Large network of contractors to cover Ontario. Feel free to call for competitive rates today.

Landini

THE 4 SERIES is the very latest addition to the Landini tractor family. Designed to replace several heritage series tractor lines with a single, more versatile range, the 4 Series fully revolutionizes Landini's low- & medium-power segment.

SIX MODELS ranging from 64 to 107 hp, and are powered by Deutz 4-cylinder engines that meet the EPA's strict Tier 4i emissions requirements.

www.landini.ca

12X12 SHUTTLE AND POWERSHIFT

The 4 Series tractors feature a versatile, modular 12x12 transmission with four synchronized gears in three ranges.

DELUXE CAB

Designed to offer best-in-class operator comfort, the cab of the 4 Series tractors has an automotive-style interior with ergonomically arranged controls providing a safe and stress-free working environment for long hours in the field.

HIGH PERFORMANCE HYDRAULICS

Featuring two gear-type pumps, one feeding the steering system and the other operating all hydraulic functions, the hydraulic system in the 4 Series has the braun to handle heavy demands.

The Grader Leveler is the ideal tool for leveling and grading work needed after winters rough touch. The two blade design allows the front blade to cut down high spots while the rear blade redistributes material to fill low spots.

Grader Leveler is available for 3PH and loader applications.

Meteor snowblowers are built to get your work off the ground with reliable performance and a high capacity 5 blade fan design.

Made in Ontario, the Meteor is available in a wide range of models to fit 12 HP compact tractors right up to 200 HP farm tractors.

Jan 31st - Feb 1st, 2017

**Solving the Precision
Agriculture Puzzle
for Profit**

Farms.com/PrecisionAgriculture

Conference Sponsored by:

Conference Media Sponsored:

SOLVING THE PRECISION AGRICULTURE PUZZLE FOR PROFIT

2017 Hot Topics

- Unmanned Aerial Systems: UAVs, Imagery, Services & Regulations
- Satellite Imagery Review
- Discovering Yield Opportunities with Digital Ag Technology & Software
- Setting Up Management Zones for Variable Rate Fertilizer & Variable Rate Seed Population Applications

The 2017 conference will bring together more than **300 precision ag enthusiasts** - international speakers, precision agricultural businesses, agronomists and leading precision farmers who will share how to harvest the value of technologies on the farm.

The Farms.com Precision Agricultural Conference & Ag Technology Showcase tradeshow features more than 20 of Precision Agriculture's leading businesses. The tradeshow provides attendees with opportunities to network and see new technologies first hand.

The Popular Precision Farmer Panel will return. Precision Ag farmers will share their practical experiences with new technologies & data on their farms.

WHY ATTEND THE 2017 CONFERENCE?

It is the largest gathering in Canada of Precision Agriculture speakers, experts, agri-business professionals and farmers

- Great networking, giving you the opportunity to build new relationships
- An agenda featuring global agriculture technology keynote speakers
- A tradeshow with leading precision agriculture technology and service providers
- Keynote and breakout presentations covering everything from new sensors to managing big farm data to software to agronomic research

The Farms.com Precision Agriculture Conference & Ag Technology Showcase is a terrific opportunity to learn and adopt new ideas that will help drive our costs and increase yields!

HEAR FROM EXPERT INTERNATIONAL SPEAKERS:

Wade Barnes, a leader in Precision Agriculture and founder of Farmers Edge. Wade leads a team of 250+ dedicated precision agronomists, technology innovators, and sustainability experts.

Denise Hockaday, Climate Commercial Lead - Canada, Climate Corporation. Denise is responsible for the Canadian launch and growth for The Climate Corporation, a subsidiary of Monsanto, which aims to help farmers increase yields and reduce risk through Climate FieldView™ insights and decision tools.

Lisa Prassack, President of Prassack Advisors, Agri Food Innovation Expert & Data Strategy Consultant. Lisa Prassack has over 20 years of experience working with big data analytics. She specializes in working in tandem with innovative agri-technology companies & farmers by providing critical market understanding with data-intensive solutions.

Last year's conference registration **SOLD OUT!**
Register NOW at Farms.com/precisionagriculture to ensure your spot at the largest Canadian gathering of Precision Agriculture Professionals, and Farmers. Don't miss this opportunity to network, build new relationships, and learn how to put the precision ag puzzle together for profit\$!

Argis 2000 Ltd. is a supplier of quality after market products for agricultural equipment, located in Midwestern Ontario. Argis 2000 Ltd. services both agricultural dealers and individual farmers, offering a number of precision agriculture products and services.

Argis 2000 Ltd. was started in 2000 to help address the cutting needs in the agricultural industry by offering the high quality German made Schumacher knife system to the Ontario market. Since then, Argis 2000 Ltd. has expanded the range of products the company offers to include various solutions to farmers tillage, planting and harvesting needs – including precision agriculture solutions.

Argis 2000 Ltd. always strives to seek out respected, quality, aftermarket products and is proud to provide innovative solutions to its agricultural customers.
