Hay Handler

HAY HANDLER INFO
& SALES CALL LLOYD
519-335-4135

You already know how weather-dependent making premium hay can be. It's the Hay Handler's job to work on your side, making the most of the haying windows the weather permits you. With it, you can merge invert, fluff or windrow your cut swaths.

But what sets the Hay Handler apart is the ease with which it handles hay pickup. With it, you can pick up a 10' wide swath of hay that has been laid out by your discbine and reduce it's drying time. With the hay handler, you can mow in the morning and do haylage in the evening.

Seed Transport Tube Conveyor

Gently handles fragile soybeans, peas, seeds and other delicate crops

- Model 8"/26' & 8"/31' are standard sizes
- New product line, models 10"/31' & 10"/41'
- Hopper height adjustable to fit gravity wagons or tote bags
- 10" wide crescent top belting runs inside 8" tube
- Conveys materials up to a 30° incline
- 3 stage telescopic down-spout adds to your filling convenience
- Hydraulic or electric powered
- Other sizes made to order

Industrial Lighting

YES – You **should** consider LED Lighting

JUST TAKE A LOOK!

The cost effectiveness of LED lighting is simply unparalleled compared to other light sources.

Estimated annual lighting costs for a 20,000 sq. ft. facility with 4,000 annual operating hours.

PER YEAR

ANNUAL ENERGY COSTS

POWER CONSUMPTION

INCANDESCENT	FLUORESCENT	LED
46,000	22,000	17,500
\$5,060	\$2,420	\$1,925
VERY HIGH	HIGH	REDUCED OF 48%

We all want to
save moolah.

So why hasn't
everyone switched to LED?

SILVER CREEK PONDS

We know ponds...

We naturally balance your pond's biological ecosystem by significantly reducing algae, weeds, and pond odours, resulting in greatly improved water quality for an aesthetically pleasing fishing and swimming pond.

FISH FOR STOCKING

Rainbow, brook and brown trout in various sizes available year-round.

Bass, sunfish, perch and more available in season.

Place your stocking orders soon for best selection of species and sizes.

EQUIPMENT & SUPPLIES

Pond fountains; surface aerators; pond aerating windmills; air blowers; Nature's Pond Conditioner pond treatments; aquatic weed eradicators; pond nets and algae seines; high volume waterfall pumps; rubber pond liners; and much more.

CONSULTATION SERVICES

As a professional biologist with 35 years' practical experience, I assess the cause(s) of your pond issues and provide long-term practical biologically-sound solutions. We also assist with permit requirements, develop new pond designs, and provide excavation advice and contacts.

Belwood, Ontario

Thank you to Cranberry Creek Dairy in
North Gower, Ontario for choosing Tasco Dome!

*“We’ve been able to take almost four weeks
off the time it takes heifer calves to be
ready to breed or reach breeding weight”
– Jake Meeks*

Tasco Dome fabric covered structures are a smart choice for heifer replacement barns. This 65' x 156' Tasco Dome has allowed Jake to more meticulously manage their heifers. They are fed and cared for in tight age and weight groups. This decreases competition and allows for an accelerated growth rate.

This building was a cost effective solution to a crowded heifer housing problem. The light and air quality in a Tasco Dome are second to none, making them a healthy alternative to traditional wood and steel buildings.

I HELP FARMERS GET FARM LOANS

My name's Andre Ouimet. My grandpa was an apple farmer. One season he had a bad harvest. The bank he was loyal to for years turned its back on him. He lost the farm and moved our family to the city. To this day, my dad still chokes up as he tells the story of how the bank seized our ancestral home. I know how hard farmers work. I know how hard my grandpa worked. It was NOT his fault. He needed a temporary helping hand and no one was there to help him. Because of my family history, I wanted to do something to help farmers, so I became a licensed Mortgage Agent with **EXPERT MORTGAGE**. Now I can help farmers **ACROSS ONTARIO**. I can access other lenders as well as bank lenders. I specialize in agricultural lending. I have over 200 private lenders as well as bank lenders to talk to for your mortgage needs.

Even if you have BAD CREDIT & NO PROOF OF INCOME, I can still help you

I REPRESENT OVER 200 LENDERS

Many provide 1st, 2nd and 3rd mortgages even with:

- Horrible Credit
- Bankruptcy
- Unemployed
- Mortgage Arrears
- Property Tax Arrears
- Power of Sale
- Self-Employed
- Pension & Disability

FARM OWNERS! Call NOW for FAST, EASY CASH!

CALL ME EVEN IF EVERYONE ELSE HAS SAID NO!

With over 200 lenders at my disposal I can get you a mortgage even with...

- Bad credit
- Power of sale
- Tax arrears
- Poor cashflow
- Mortgage arrears
- No financials

Does your bank offer payments THIS LOW?

Mortgage Amount	Monthly Payment	Bi-weekly Payments
\$200,000	\$956.78	\$441.39
\$250,000	\$1,195.98	\$551.74
\$300,000	\$1,435.17	\$662.08
\$350,000	\$1,674.37	\$772.43
\$400,000	\$1,913.57	\$882.78
\$500,000	\$2,391.96	\$1,103.47
\$600,000	\$2,870.35	\$1,324.17
\$700,000	\$3,348.74	\$1,544.86
\$800,000	\$3,827.13	\$1,765.56
\$1,000,000	\$4,783.91	\$2,206.95

Rates as of
February 2020
OAC

Most banks underwrite loans using standard commercial lending guidelines that don't make any sense for farms. Coming from a farm family, I understand the farming community.

Talk to me if you'd like to...

- Buy more land or new equipment
- Repair or construct new buildings
- Refinance your existing debts

I can offer qualified farmers...

- Up to 75% of full farm value
- Up to 30 year amortization
- Operating lines of credit

MULE PRO-FXT

OUTLAST.

Your days of hard work will be long gone before a Kawasaki MULE Side-x-Side tires out. Every MULE is built tough with premium components and legendary durability, so it's no sweat that we confidently back our MULEs with an industry-leading 3-year factory warranty.

OUTPERFORM.

Conquer your land with all-day comfort that is engineered into every MULE component. From the double wishbone, adjustable coil-over suspension to the welded ladder-style frame, the MULE PRO Series glides over whatever you throw its way like no other workhorse on the market.

3.99% *Good Times*
FOR 84 MONTHS

ProFXT LE RE MSRP \$19,999

The MULE PRO-FXT Ranch Edition is stocked standard with a 3-to-6 passenger trans cab system, shortest-in-class wheelbase for tight turns, WARN 4500 ProVantage winch, roof, auxiliary LED headlights, 1000 lbs (453 kg) carrying capability and 2,000 lbs (907 kg) towing capacity.

**THE UTILITY TRACTOR.
REDEFINED. RE-THOUGHT. RELENTLESS.**

This is a game-changer. The 4700 Series is the biggest Massey Ferguson™ R&D project ever. The goal was to create the most heavy-duty, versatile tractor in its class. So there's more power for greater lift capacity and pulling heavier implements. Yet it's nimble enough to maneuver through any operation, making it ideal for hay, dairy, livestock and municipal duty. Come see the result.

Offers not applicable in Quebec. *Offers vary by model. Rebate and financing offers valid on select 2019-2020 new and unregistered Polaris® RZR®, RANGER®, Sportsman®, GENERAL®, and ACE® models purchased between 1/1/20-2/29/20. Maximum rebate of \$3,500 on model year 2019 vehicles applies to the purchase of a new 2019 RZR XP Turbo S Velocity or RZR XP 4 Turbo S Velocity (model number Z19VEES2AM, Z19VPE32AM) and will be deducted from the negotiated selling price before taxes. See your local dealer for details. **Limited time purchase financing after provided through TD Auto Finance on approved credit, valid on select 2019-2020 new and unregistered models purchased between 1/1/2020-2/29/2020. Representative finance example based on a 2019 RANGER XP 900 with an MSRP of \$15,499. Down payment may be required, \$15,499 financed at 3.99% APR with \$0 down payment equals \$285.37/mo. per month for 60 months. Cost of borrowing is \$1,623.06, for a total obligation of \$17,122.06. Taxes, license, insurance, registration, freight and PDI and in-dealer and other applicable fees are extra. Dealers may sell for less. Applicable fees may vary by region and dealer. Dealer side/side may be necessary - but, may not be available in all cases. See a participating authorized dealer for full details, eligible models and other offers. Offers are subject to change, extension or cancellation without notice. Minimum Amount Financed \$3,000. Maximum Amount Financed \$50,000. Other qualifications and restrictions may apply. Errors and omissions accepted. *Free one-year extended warranty valid with purchase of select new 2019-2020 Polaris Off-Road Vehicle on select models. Free one-year coverage consists of 6 months' factory warranty, plus 6 months Polaris promotional Limited Warranty for a total term of 12 months. On 2018, 2019 and 2020 RANGER® models free two-year coverage consists of 12 months' factory warranty, plus 12 months Polaris promotional Limited Warranty for a total term of 24 months. Cannot be combined with any other Extended or Limited Warranty offers. Coverage may be extended at the time of vehicle purchase, see dealer for details. Offer includes all model years of High Lifter Edition models, RANGER EV models, race, float and modified vehicles, including Alberta, this is given as a free of charge Limited Warranty. Offers may be modified or discontinued at any time in Polaris' sole discretion. WARNING: Polaris® off-road vehicles can be hazardous to operate and are not intended for on-road use. Driver must be at least 16 years old with a valid driver's license to operate. Passengers, if permitted, must be at least 12 years old. All riders should always wear helmets, eye protection, and protective clothing. Always use seat belts and roll overs or doors (as equipped). Never engage in stunt driving, and avoid excessive speeds and sharp turns. Riding and alcohol/drugs don't mix. All riders should take a safety training course. Call 800-342-3764 for additional information. Check local laws before riding on trails. ©2020 Polaris Inc.

TRANSPARENCY.
SIMPLICITY.
TRUST.

THE BEST PERFORMING RTV IS ALSO THE MOST VERSATILE ONE.

The best possible performance meets the most comfortable ride in the new RTV-X1140. Thanks to its ample seats, 4 adults can ride comfortably. Flip down the back seat and take advantage of the leading cargo capacity. No wonder it's one of the best-selling utility vehicles in North America.

EQUIPMENT THAT PUTS YOU ON THE LEADING EDGE

Kelly CL2 Disc Chain

A revolutionary option for soil management practices

A revolutionary option for soil management practices Kelly Disc Chains consists of a replaceable, sharpened, concave disc mounted to a cast steel alloy, weighted hub with a hook and eye for linking together.

Kelly
TILLAGE SYSTEM

A Better Seedbed for a Better Bottom Line

www.kellyharrows.com

Will take the largest bales produced round or square

Round or square bales are distributed with an even flow of material

Efficient, Versatile, Durable and Manoeuvrable

Large silage is evenly distributed

USC will shred straw unchopped for animal bedding. With the touch of a switch chop straw short for mulch or into a feed ration or for cattle bedding

Kidd
FARM MACHINERY

BALE SHREDDER 450

- Easily handles Straw, Haylage, Clamp grass and Maize silage
- Compact but with surprising large capacity for 2 - 4 round bales up to 6ft diameter, 2 - 4 large or quadrant square bales or 2 long big square bales.
- Even discharge to either side. Chute rotates 320 degrees.
- Blow capacity up to 25m.
- Extremely manoeuvrable around stock buildings
- Material can be directed to exactly where it is needed

CASE IH ADDS TO TRACTOR LINEUP

BY DIEGO FLAMMINI | FARMS.COM

Case IH has introduced a new series of tractors to fill a gap in its lineup and to offer producers more equipment options.

The Vestrum Series tractors are built to deliver the comfort and power of a high-horsepower tractor within a compact design.

The series consists of four models – the 100, 110, 120 and 130.

"A tractor this size with this horsepower range was something we were missing from our lineup," Greg Lucey, Farmall marketing manager with Case IH, told Farms.com.

Lucey explained that "the 100 comes in at 86 PTO hp and the 130 has 112 PTO hp."

Case IH announced the tractors as additions to its livestock lineup.

Some of the features of the tractor series make it perfect for those types of operations, Lucey said.

"We're getting into a smaller-sized

tractor with a lot of sophisticated features," he said. "The CVXDrive transmission, loader lift capacity (6,700 lbs. or 3,015 kg) and our hydraulic pump flow (28.5-gallons-per-minute) will make farmers and ranchers more productive."

The tractors are equipped with a closed-center load-sensing (CCLS) hydraulic system.

Prior to the Vestrums, Case IH didn't have a tractor in this class with this option.

"This is about a 12,000-pound (5,400-kg) tractor," Lucey said. "It's smaller than our Maxxum line by about 1,500 lbs. (675 kg), and the Maxxums would've been the first tractors where a customer could have had CCLS."

Other features of the Vestrum include Case IH's MultiControl arm-rest, Bluetooth radio, and a 55-degree steering angle.

KUBOTA INTRODUCES FASTBALE

BY DIEGO FLAMMINI | FARMS.COM

Kubota is adding to its existing lineup of hay equipment in North America with the introduction of the FastBale continuous baler.

The implement has a pre-chamber and a main chamber, which allows the operator to produce bales quickly and seamlessly.

"The operator never has to stop the tractor," Andrew Marshall, director of national sales with Kubota Canada, told Farms.com. "From a baling perspective, if it takes one minute to produce a round bale, once that process is complete and the bale needs to be ejected, other balers would have to stop the unit."

With the FastBale, an 800mm-in-take rotor feeds crop material into the pre-chamber, which is equipped with a 25-knife chopping system.

Once the bale is at its proper density, the crop flow and bale is sent into the main chamber to complete the process. When the bale is complete, the crop flow is redirected back to the pre-chamber to have netting applied.

At the same time, the bale in the main chamber is ejected onto the wrapper and then placed onto the ground.

When the pre-chamber is full of crop material, the process repeats

itself.

Given the challenges farmers face during any given year, it's important for them to have tools that allow them to work faster, Marshall said.

"When we consider baling today and look at weather patterns, timing and staffing challenges, anything we can do from a one-pass approach or increase capacity for a single operator creates those natural efficiencies," he said.

Kverneland Group, a Kubota subsidiary based in Ravenna, Italy, built the FastBale and European farmers have been using it for the last few years.

ZONING CHANGES FOR AGRI-TOURISM

by KATE AYERS

Farmers looking to diversify into agri-tourism should be aware of government regulations.

For some farmers, agri-tourism offers an opportunity to expand or specialize their operations to tap into new markets. However, before embarking on this journey, producers should ensure their properties are eligible for land use changes.

Specifically, landowners should check with their local municipalities to determine what uses are permitted on their farms, based on official plans and zoning bylaws, an OMAFRA article said.

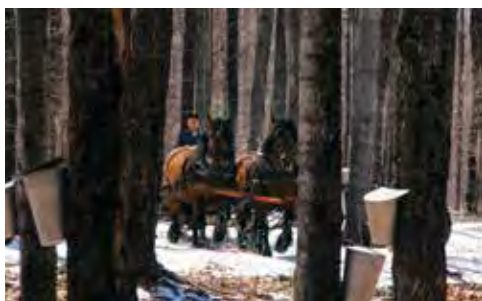

Fortunately, farmers can access some resources to help them navigate this venture.

"OMAFRA's Guidelines on Permitted Uses in Ontario's Prime Agricultural Areas is available to help farmers interpret the policies in the provincial policy statement," Bianca Jamieson, OMAFRA's spokesperson, said to *Better Farming* in an email statement.

Policies are similar in provincial plans such as A Place to Grow: Growth Plan for the Greater Golden Horseshoe and the Greenbelt Plan. The Provincial Policy Statement and these other provincial plans provide direction on matters of provincial interest including the protection of prime agricultural areas.

OMAFRA's guidelines "explain diversification opportunities and the criteria that need to be met for different categories of uses," she said.

"Farmers should check with the municipal planning department to clarify land use

planning requirements, for example, on the need for a zoning bylaw amendment," Jamieson added. "If new buildings or additions or modifications to buildings are anticipated, farmers should also check with the municipal building department on building code requirements."

Overall, land policies in Ontario "permit a wide range of different uses and economic opportunities on farms within prime agricultural areas."

Farmers should also consider tax implications of land use changes.

"Since a change in land use can result in a change in tax assessment, it is crucial that farmers interested in undertaking agri-tourism or other ventures on their farms consult with the Municipal Property Assessment Corporation," Jamieson said.

For example, switching from an agricultural land use to a commercial or industrial business may result in a higher tax rate, she added. **BF**

NEW LISKEARD FREE STALL ONGOING DAIRY FARM

Barn built in 2011. Total acreage is approximately 341.5 acres with approximately 314 tiled workable acres. Transferable milk quota is 75.8 kg. Westfalia surge double 5 herring bone parlor.
