INTRODUCING THE NEW **BALE BARON 5250!**

5250
BIG PRODUCTION
JUST GOT
BETTER

IN-CAB ISOBUS CONNECTIVITY
WIDER STANCE FOR BETTER STABILITY
REDESIGNED CUSHIONED CYLINDERS
LOWER BALE PICKUP AND ROLLERS
GAS SHOCK MOUNTED ACCESS PANELS
GREASELESS NITRIDED PINS AND
COMPOSITE BUSHINGS
SWING OUT TWINE CABINETS

Introducing the completely redesigned Bale Baron 5250 Series.

Building on the original design principles that Bale Baron owners appreciate, the new 5250 models feature many impressive upgrades designed to improve productivity and serviceability.

1-519-887-9910
www.marcrestmfg.com

SMALL BALES. BIG PRODUCTION.

INCREASE PRODUCTIVITY

FABRIC STRUCTURES FOR GRAIN STORAGE

Increase your productivity with natural light and a clear span interior. With 16 to 19% translucency, the natural light provides a pleasant working environment while protecting your assets. Zero interior poles or pillars offer maximum usable space and the ability to easily maneuver within. Keep production going this season. **Contact for a free quote.**

I HELP FARMERS GET FARM LOANS

My name's Andre Ouimet. My grandpa was an apple farmer. One season he had a bad harvest. The bank he was loyal to for years turned its back on him. He lost the farm and moved our family to the city. To this day, my dad still chokes up as he tells the story of how the bank seized our ancestral home. I know how hard farmers work. I know how hard my grandpa worked. It was NOT his fault. He needed a temporary helping hand and no one was there to help him. Because of my family history, I wanted to do something to help farmers, so I became a licensed Mortgage Agent with **EXPERT MORTGAGE**. Now I can help farmers **ACROSS ONTARIO**. I can access other lenders as well as bank lenders. I specialize in agricultural lending. I have over 200 private lenders as well as bank lenders to talk to for your mortgage needs.

Even if you have BAD CREDIT & NO PROOF OF INCOME, I can still help you

I REPRESENT OVER 200 LENDERS

Many provide 1st, 2nd and 3rd mortgages even with:

- Horrible Credit
- Bankruptcy
- Unemployed
- Mortgage Arrears
- Property Tax Arrears
- Power of Sale
- Self-Employed
- Pension & Disability

FARM OWNERS! Call NOW for FAST, EASY CASH!

CALL ME EVEN IF EVERYONE ELSE HAS SAID NO!

With over 200 lenders at my disposal I can get you a mortgage even with...

- **Bad credit**
- **Power of sale**
- **Tax arrears**
- **Poor cashflow**
- **Mortgage arrears**
- **No financials**

Does your bank offer payments THIS LOW?

Mortgage Amount	Monthly Payment	Bi-weekly Payments
\$200,000	\$956.78	\$441.39
\$250,000	\$1,195.98	\$551.74
\$300,000	\$1,435.17	\$662.08
\$350,000	\$1,674.37	\$772.43
\$400,000	\$1,913.57	\$882.78
\$500,000	\$2,391.96	\$1,103.47
\$600,000	\$2,870.35	\$1,324.17
\$700,000	\$3,348.74	\$1,544.86
\$800,000	\$3,827.13	\$1,765.56
\$1,000,000	\$4,783.91	\$2,206.95

Rates as of
August 2020
OAC

Most banks underwrite loans using standard commercial lending guidelines that don't make any sense for farms. Coming from a farm family, I understand the farming community.

Talk to me if you'd like to...

- Buy more land or new equipment
- Repair or construct new buildings
- Refinance your existing debts

I can offer qualified farmers...

- Up to 75% of full farm value
- Up to 30 year amortization
- Operating lines of credit

Hay Handler

HAY HANDLER INFO
& SALES CALL LLOYD
519-335-4135

You already know how weather-dependent making premium hay can be. It's the Hay Handler's job to work on your side, making the most of the haying windows the weather permits you. With it, you can merge invert, fluff or windrow your cut swaths.

But what sets the Hay Handler apart is the ease with which it handles hay pickup. With it, you can pick up a 10' wide swath of hay that has been laid out by your discbine and reduce its drying time. With the hay handler, you can mow in the morning and do haylage in the evening.

Seed Transport Tube Conveyor

Gently handles fragile soybeans, peas, seeds and other delicate crops

- Model 8"/26' & 8"/31' are standard sizes
- New product line, models 10"/31' & 10"/41'
- Hopper height adjustable to fit gravity wagons or tote bags
- 10" wide crescent top belting runs inside 8" tube
- Conveys materials up to a 30° incline
- 3 stage telescopic down-spout adds to your filling convenience
- Hydraulic or electric powered
- Other sizes made to order

**Thank you to Cranberry Creek Dairy in
North Gower, Ontario for choosing Tasco Dome!**

*“We’ve been able to take almost four weeks
off the time it takes heifer calves to be
ready to breed or reach breeding weight”
– Jake Meeks*

Tasco Dome fabric covered structures are a smart choice for heifer replacement barns. This 65' x 156' Tasco Dome has allowed Jake to more meticulously manage their heifers. They are fed and cared for in tight age and weight groups. This decreases competition and allows for an accelerated growth rate.

This building was a cost effective solution to a crowded heifer housing problem. The light and air quality in a Tasco Dome are second to none, making them a healthy alternative to traditional wood and steel buildings.

Valid Aug. 15 - Dec. 31, 2020

HUSQVARNA.COM

* O.A.C. On your FlexiCard. Offer valid August 15 - December 30, 2020. Minimum purchase of \$1,500 excluding taxes. For no payments deferred plans, no payments are required during the promotional period, except for payment protection insurance premiums and taxes, if applicable, which are billed monthly. Interest at the cardholder agreement annual interest rate (Account AIR) accrues during the promo period and will be charged if the balance is not paid in full by the promo expiry date. Initial Account AIR is disclosed upon approval, varies based on cardholder's creditworthiness at time of application. Current Account AIRs are 30.99%, 35% (max for Quebec residents), and 37.99%. Any balance at end of promo period bears interest at the Account AIR. Admin fee ranges from \$79.99 to \$259.99 depending on purchase amount and will be financed with purchase (excluding Quebec residents). Annual fee of \$39.99 applies for residents of Quebec and \$24.99 may apply for residents of other provinces. Promotions and terms may be changed without notice. No payments deferred plans are not available for Quebec residents, however, other deferred interest promos are available. Financing provided by Flexiti Financial. Flexiti and the Flexiti design are trademarks of Flexiti Financial Inc.

MASSEY FERGUSON

YOU ALREADY HAVE HORSES. NOW YOU NEED A WORKHORSE.

You love your life. But there's never enough hours in the day to get all the work done. Fortunately, to keep up with all the chores on the farm, you don't need a bigger, more expensive tractor. You just need a better, more intuitive one — like one of the new and improved compact and utility tractor series from Massey Ferguson. All the dependability you need, and now more comfortable and more versatile than ever. Visit your Massey Ferguson dealer to learn more.

— Introducing —

The **Farms.com Markets** app has the latest agricultural commodity prices. The Farms.com Markets app has up to date quotes, futures contracts, charts, and news on your mobile device. The app has commodity level data including corn prices, wheat prices, soybean prices, canola prices, live cattle prices, lean hogs prices and more. The market price data is from CBOT, CME and other exchanges. Find grain and livestock futures, options, and contracts, as well as historical pricing data and charts. Use the app to view the latest agriculture news and headlines, and customize your home screen with commodity prices on your watch list.

Let Us **Protect** the Farm While You **Harvest** Success

BrokerLink's Farm Insurance Program is designed for agricultural business operators specialized in livestock, produce, cash crops, dairy, wineries and orchards. Whether you own a large-scale commercial operation or a hobby farm, we'll find you the best insurance for your unique needs.

Program highlights:

- All farms are covered by the Farm Insurance Program regardless of size
- Coverage for all risk of loss, including farming machinery
- Free inspection upon initial write-up; regular inspections occur thereafter including thermal and electrical testing
- Replacement cost on any equipment under 5 years old
- Potential discounts with the bundling of multiple policies

Ask us how you can save even more with **Farm Advantage**®

HFL FABRICATING

BIOMASS BUILDER

The Biomass Builder Row unit provides an economical way to add cover crops to your side dress application, for a timely, consistent emergence of your cover crops. It is also being used in relay cropping of wheat and soybeans.

Typical 28% application with coulter and knife. Change 28% knife to a dry fertilizer knife or to a 3rd row of cover crop. 2 or 3 rows of cover crop at changeable row widths. Adjustable depth control. Press wheels to preserve moisture in the summer. 30" clearance height.

■ Various applications: ex. strip till freshening. ■ Relay Cropping wheat and soybeans.

See dealer for details. Warning: The Polaris RANGER® and RZR® are not intended for on-road use. Driver must be at least 16 years old with a valid driver's license to operate. Passengers must be at least 12 years old and tall enough to grasp the hand holds and plant feet firmly on the floor. All SeS drivers should take a safety training course. Contact BOWA at www.polaris.org or (549) 255-2560 for additional information. Drivers and passengers should always wear helmets, eye protection, protective clothing, and seat belts. Always use car seats or strollers (as applicable). Be particularly careful on difficult terrain. Never drive on public roads or paved surfaces. Never engage in stunt driving, and avoid excessive speeds and sharp turns. Riding and alcohol/drugs don't mix. Check local laws before riding on trails. ATVs can be hazardous to operate. Polaris adult models are for riders 16 and older. For your safety, always wear a helmet, eye protection and protective clothing, and be sure to take a safety training course. For safety and training information in the U.S., call the SVIA at (800) 887-2887. You may also contact your Polaris dealer or call Polaris at (800) 343-5764. ©2014 Polaris Industries Inc.

#ONyield20

Tips to Improve your Yield!

Are you interested in increasing your corn and soybean yields? Or would you like to have some insights into how the corn and soybean yields will be in Ontario this year? Join us for the Great Ontario Yield Tour event -- from the comfort and safety of your home. It's free to register and attend.

The Great Ontario Yield Tour has lined up several expert presentations, as well as demos from a variety of companies who are excited to help farmers produce better yields. Presentations are hands-on, practical tips, from experts. Join us for the best few hours in front of a computer screen you will spend this summer.

Keynote Presentations

Dan Luepkes

Management of a High-Yield Corn System -- Getting your soil right first. Planter applied fertility, stress relieving practices, late season fertility.
September 2, 12:10 pm – 1:10 pm

Dan Luepkes has risen to fame on the TV Show Corn Warriors. His season 1 success was a testament to his own determination as his farm is located in Oregon, Illinois, a small town in the northwest region of the state, which had extremely poor, sandy soil that was unable to consistently produce yields or profit when it was first acquired. Dan will share his secrets of his high yield corn management system.

Ken Ferrie

Teaching the Planter to Dance through Tough Conditions to get the Stand you Want!
September 3, 12:10 pm – 1:10 pm

Ken Ferrie is an independent consultant who works with farmer clients and fertilizer dealers to provide agronomic services and strategic direction. Ken's presentation will focus on what a good stand is, and how to perform a thorough evaluation of corn stands. Ken says the best way to improve your corn stand is to know where you are now, so that you can improve it. Today's planters can be set to dance through tough conditions. New technology has better equipped today's planters to handle tough springs like 2020. Ken's presentation will focus on which of these technologies make the biggest difference and have the best R.O.I.

Moe Agostino & Greg Stewart

Ontario Corn and Soybean Market Outlooks and Ontario Yield Projections
September 2, 10:00 am US & Global Soybean Market Outlook
September 2, 1:10 pm Moe & Greg to provide Ontario Soybean Estimates
September 3, 10:00 am US & Global Corn Market Outlook
September 2, 1:10pm Moe & Greg to provide Ontario Corn Estimates

Moe will start each day with the global market outlook, starting with the soybean outlook on September 2, and the corn outlook on September 3.

Great Ontario Yield Tour scouts toured the province in August taking corn and soybean samples from farmers fields. Now the team is ready to share province-wide corn and soybean yield estimates, as well as regionalized estimates for south, east, central, and western Ontario. The aim of the tour and the presentations is to provide farmers with information, so that they can make better production and timely marketing decisions. Soybean predictions will be provided on September 2, and the corn predictions on September 3.

Hosted By

September 2 Schedule:

- 10:00 am** Welcome and US & Global Soybean Market Outlook with Maurizio Agostino
- 10:20 am** Sponsor Demonstration Sessions
- 10:20 am Maizex: Flex, Fungicide and Flat Out Yield
 - 10:40 am Bushel Plus: Do we truly know our combine's harvest loss? We do!
 - 11:00 am Genesis Ag: Your Soil Health & Yields. Your ROI. Why Genesis Ag?
 - 11:20 am Dan Luepkes: Boron, what are the rates for Results?
- 11:40 am** Enjoy some lunch as you explore the Exhibit Hall
- 12:10 pm** **Keynote Presentation Speaker Dan Luepkes**
- 1:10 pm** Ontario Soybean Yield Projections with Moe Agostino and Greg Stewart
- 1:30 pm** Explore the Exhibit Hall

September 3 Schedule:

- 10:00 am** Welcome and US & Global Corn Market Outlook with Maurizio Agostino
- 10:20 am** Sponsor Demonstration Sessions
- 10:20 am Precision Planting - Closing in on higher yields
 - 10:40 am GPS Ontario – "Fertile Stripping" - Growing more with less
 - 11:00 am Alpine - Maximizing Nutrient Efficiency with K-Tech® Potassium Products
 - 11:20 am Ken Ferrie – Learning your hybrid characteristics
- 11:40 am** Enjoy some lunch as you explore the Exhibit Hall
- 12:10 pm** **Keynote Presentation Speaker Ken Ferrie**
- 1:10 pm** Ontario Corn Yield Projections with Tour Results with Moe Agostino and Greg Stewart
- 1:30 pm** Door Prize winners and Yield Guess Winners Announced

Hosts/Platinum Sponsors

Introduced to the Canadian marketplace in 1973, ALPINE brand liquid fertilizers are the leaders in in-furrow starter technology. In addition to this strong foundation of in-furrow starter products, ALPINE brand products also include foliar fertilizers, micronutrients, as well as a variety of specialty products. Included is ALPINE's newest patent pending potassium technology K-Tech®. The ALPINE sales force is professionally trained, with many having their Certified Crop Advisor (CCA) or Professional Agrologist (P. Ag) designation.

Along with this strong agronomic background comes practical hands-on experience and expertise in the area of application equipment. This expertise is supported by Canada's largest inventory of parts and accessories specifically designed for planters, drills and seeders. In addition, ALPINE is one of Canada's largest distributors of Norwesco polyethylene storage tanks.

Sales, marketing and research of ALPINE brand products is focused on the grower, with products distributed through an extensive network of farm agents and retail locations. Logistics support is provided to our customers with a fleet of company-owned delivery trucks, as well as contract carriers.

From German Ag Engineering, to the heart of the Prairies, there is one thing that Bushel Plus believes in: better farming. Farming that is safer. Farming that produces results. That's why Bushel Plus developed a drop pan solution that replaces old, dangerous activities with safety and convenience, creating easy and accurate results that help maximize combine efficiency.

Based in Brandon, MB, owners Marcel & Chris have tirelessly sought to use their knowledge and passion to improve farm efficiency. Joining forces with the best combine specialists in the world led to the development of the Bushel Plus System. Since its inception in 2018, Bushel Plus has worked with multiple combine manufacturers and dealers to incorporate it into their internal training, customer combine clinics and prototype testing.

In short, the team at Bushel Plus lives and breathes combines. So, check out the Bushel Plus Demo to see what they are talking about!

Hosts/Platinum Sponsors

Genesis Ag's line of crop nutrition products are designed to help farmers restore their soil's health and microbial life. Their seed treatments, biologicals, and plant nutrients work with conventional fertility programs to maximize and enhance growth potential. Genesis Ag products have helped set world records for corn yield, along with impressive yields in soybeans, small grains, vegetables, tubers, and fruit. While the Genesis Ag professionals have extensive experience focusing on high-yield environments, they have experience working with all kinds of growers. Their team can help you with a plan for richer soil and a sustainable future for your farm.

GPS Ontario, is a local "Precision Ag Product Supplier" serving all of Ontario with sales, service, technical support, and data management. Since 2000, GPS Ontario has promoted "Advanced Better Management Practices" (ABMP). GPS Ontario is currently promoting fertile stripping as a cropping practice. This is the newest, most efficient cropping process for growing row crops. Fertile Stripping addresses almost all of the none-productive common cropping practices that contribute to reduced yields. Farmers are looking for higher yields. Fertile Stripping uses less fertilizer, less trips across the field (compaction), less carbon burn, man hours per acre. Join the GPS Ontario demo to learn more about "Growing More with Less!"

Greenfield Global is Canada's largest ethanol producer and operates four ethanol distilleries in Ontario and Quebec, as well as four specialty chemical manufacturing and packaging plants in Canada, the United States, and Europe.

Ethanol is a high-octane, economical, clean-burning fuel made from starch-based crops, often from local farmers. Ethanol-blended gasoline is proven to improve engine performance, reduce air pollution, and cut greenhouse gas emissions compared to fossil fuel. Earlier this year, the global pandemic stifled ethanol demand across North America, but Greenfield shifted operations and kept plants running. Greenfield was the first ethanol producer authorized by Health Canada to supply Technical Grade ethanol for hand sanitizer to combat COVID-19.

Farmers supply the corn that makes this possible. Greenfield's Buy Direct program makes selling corn easier for farmers and is especially helpful as government climate policies like the Clean Fuel Standard (CFS) are finalized and take effect. When implemented, the CFS is projected to increase the average ethanol content in gasoline to 15 percent by 2030, up from the average blend of nine percent today.

Hosts/Platinum Sponsors

Canadian-owned and operated, Maizex Seeds commercializes and markets high-performance corn hybrids, soybean varieties, and seed-based technologies for farmers across Canada. Our research is focused on matching the best genetics with seed-based technologies in order to help Canadian farmers maximize their yield potential and profits. Our Yield Tour presentation will focus on Flex, Fungicide, and Flat-Out Yield, three key features of corn hybrid assessment. Lead Agronomist Greg Stewart will highlight the importance of these areas and the research being done to help position hybrids on your farm for top-end performance.

Precision Planting is a company that takes the agronomy from the field and pairs it with technology and education for the grower to use. Precision Planting wants every seed to perform at its highest potential as it can for every grower. By using an approach starting at sound planter mechanics then moving all the way through into fertilizer placement and control you can set up every seed for maximum potential. Join us for this demo in discussing the trench creation to destruction for your chance to close in on higher yields.

Silver Sponsors

FINAL DOOR PRIZES

At the end of the event, every guest that attended is eligible for a chance to win one of the following prizes.

\$1750 Morse Metal Devil 14" Saw

Includes: 0-45° Mitering Vice, Overload Switch, Retracting Blade Guard, Quick Release Metal Chip Collection Chamber, 6mm & 8mm Blade Wrench, Safety Goggles, Ear Plugs, Metal Devil® NXT Steel Cutting Blade.

Provided by GPS Ontario

\$2500 Multi-Spectral Imagery Pkg

Weeds detection, hydration requirements, yield analysis and many more insights are possible using TerraNova's multi-spectral imagery service.

This prize package includes \$2500 worth of multi-spectral crop assessment & reports (choose the services best-suited to your needs).

Provided by TerraNova UAV

EQUIPMENT THAT PUTS YOU ON THE LEADING EDGE

Wil-Rich Field Cultivators

The XL2 Series performs well in heavy residue conditions, and is designed for secondary tillage and seedbed preparation.

The QX2 is the ideal line of field cultivators for rugged and hilly conditions, thanks to the Wil-Rich Floating Hitch design. Front castering gauge wheels assist in precise depth from front to rear of unit for better seedbed preparation.

FACTORS TO CONSIDER WHEN PURCHASING A USED TRACTOR

BY DIEGO FLAMMINI | FARMS.COM

An industry rep has tips for producers in the market for a used tractor.

First, a producer should know the kind of unit they need before starting any serious browsing, says J.E. Cadle, marketing manager with Case IH.

"The first question a farmer should ask themselves is 'What am I using the tractor for?'" he told Farms.com. "You want to make sure the tractor you're thinking of buying has all of the features you need to suit your work on the farm."

After identifying the tractor, a potential buyer may want to do some research on the individual unit. The more information a farmer has on a tractor, the better, Cadle said.

"Find out the history of the tractor as much as you can," he said. "Try to find records available of what it was used for because that might give you an idea of what to look for when you do see the tractor in person."

Once a farmer has an opportunity to see the tractor before buying it, a thorough visual inspection is a good place to start, Cadle said.

"A walk around the unit can tell you a lot about it," he said. "Look at the lights and make sure they work. Look for little cracks or any damage to the body. Go into the cab to see if it's clean. Do the pedals look worn? Does

the air conditioning work?"

A farmer should also take the time to look at the tractor's oil, he added. "It's not necessarily to see if the oil is full, but what does it look like?" he said. "Is it clean oil? Does it look like it's been changed recently?"

When inside the tractor, a farmer should pay attention to how many hours are on the unit.

An experienced producer may have a better idea if the hours match the condition of the machine, Cadle said. In addition, like buying a used car, a buyer may want to take the tractor for a test drive.

This will also provide an idea of how the machine operates, Cadle said.

"Once you turn it on, you'll already have a good idea of the machine's condition," he said. "But certainly, take it for a drive. Make sure the brakes work and the parking brake works. These are things farmers might take for granted but are obviously important for safety purposes."

\$1,100,000

Beef farm on outskirts of New Liskeard. Prime location. 144 acres total - 124 acres tiled, clay loam soil. Good fences, exceptional cattle handling facilities and housing. Newer main barn 160 ft x 40 ft. Newer hay barn 80 x 40ft. Various other outbuildings. Manure handling is dry. House is 4 bdrm and 1300 sq ft. Sellers wish to rent house back. Separate building site for another home with beautiful view. Solar panel field included with good income. Other land available in immediate vicinity.

\$1,150,000

Exceptional offering includes 174 acres in a prime location. 7 bedroom home, barn, sheds and crop storage providing lots of room and options for cash crop or mixed farming. The land is organic eligible and consists of 140 acres in production. All tiled, flat and efficient. The former dairy barn is well kept and currently set up for horses with a sand riding ring included. Large equipment shed with a heated shop area. Beautiful view from most of the property and airstrip with hangar are value added features. A great investment!

\$425,000

If you are looking to expand your land base or simply make a sound investment, this 169 acre vacant cash crop farm is worth a look. Located just off Hwy 11 on Development Road and in a high density operator area it consists of a mix of clay and black muck land base that needs to be tiled. Once improved it will provide good rental income or be a productive addition to an existing operation.

WE HAVE OTHER BEEF AND CASH CROP PRIVATE LISTINGS. Call for confidential info.
