There's a better way to protect your fuel.

FUEL LOCK™

The award-winning Fuel Lock™ keeps your fuel storage secure allowing you to monitor usage, right from the palm of your hand! You'll know every time your fuel is accessed, and by who, in real time – from anywhere in the world

FUEL LOCK™ PERSONAL

Say goodbye to you padlock and chain. With Fuel Lock™ for Personal there's a simpler way to secure your fuel. Just punch in your PIN, fuel up and go!

Features:

- Connection to new or existing pumps
- Single use PIN entry
- Automatic locking timer
- Operates 120/240V power
- Max 30 amps
- Weatherproof enclosure
- Upgrade to Fuel Lock™ Business at any time

FUEL LOCK™ BUSINESS

View fuel usage in the palm of your hand. Managing up to 1000 employees, Fuel Lock™ Business alerts you every time your fuel is accessed.

Features:

- Connection to new or existing pumps
- Multiple user capability
- Automatic locking timer
- Operates 120/240V power
- Max 30 amps
- Weatherproof enclosure
- Custom text and email alerts
- Free download of Fuel Lock™ app
- Daily, weekly, or monthly PIN usage reports
- Ability to read litre amount per employee fill (flow meter compatible)
- Lock out parameters
- Enclosure tamper alert
- Upgrade to Fuel Lock™ Commercial at any time

FUEL LOCK™ COMMERCIAL

Powered by **TATTLE systems**

Monitor every drop. Fuel Lock™ Commercial tracks the level of your fuel tank, notifying your fuel provider when you need a fill!

Features:

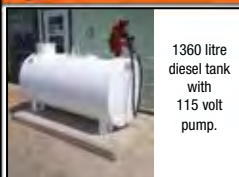

- Connection to new or existing pumps
- Multiple user capability
- Automatic locking timer
- Operates 120/240V power
- Max 30 amps
- Weatherproof enclosure
- Custom text and email alerts
- Free download of Fuel Lock™ app
- Daily, weekly, or monthly PIN usage reports
- Lock out parameters
- Enclosure tamper alert
- Ability to read level of fuel tank in real time
- View litre amount per employee fill (flow meter compatible)
- Share level data with fuel provider

Come see the display unit at our yard for details and training or check out the online link at https://www.youtube.com/playlist?list=PLEKHVPBg1ELOkbqVO_YEAKqqQUuPsn3uL

DRAINAGE

A FAMILY TRADITION FOR OVER 95 YEARS

8172 Line 2 Wellington N, Arthur, Ontario

1-877-669-1440 | www.martindrainage.com

**Thank you to Top Farms in Salford, Ontario
for choosing Tasco Dome!**

*“We chose Tasco Dome because the
service was the best, and the quality of the
structures really spoke to us.”*

– John Top Sr.

This 50' X 252' farrow to finish Tasco Dome has allowed the Top family to transition into the organic market. Chosen for the bright interior and excellent air quality, the structure provides the best environment for the animals. Not only are the pigs healthier, they have even ceased chewing on each other's tails in this natural environment. The light and air quality in a Tasco Dome are second to none, making them a healthy alternative to traditional wood and steel buildings.

I HELP FARMERS GET FARM LOANS

My name's Andre Ouimet. My grandpa was an apple farmer. One season he had a bad harvest. The bank he was loyal to for years turned its back on him. He lost the farm and moved our family to the city. To this day, my dad still chokes up as he tells the story of how the bank seized our ancestral home. I know how hard farmers work. I know how hard my grandpa worked. It was NOT his fault. He needed a temporary helping hand and no one was there to help him. Because of my family history, I wanted to do something to help farmers, so I became a licensed Mortgage Agent with **EXPERT MORTGAGE**. Now I can help farmers **ACROSS ONTARIO**. I can access other lenders as well as bank lenders. I specialize in agricultural lending. I have over 200 private lenders as well as bank lenders to talk to for your mortgage needs.

Even if you have BAD CREDIT & NO PROOF OF INCOME, I can still help you

I REPRESENT OVER 200 LENDERS

Many provide 1st, 2nd and 3rd mortgages even with:

- Horrible Credit
- Mortgage Arrears
- Self-Employed
- Bankruptcy
- Property Tax Arrears
- Pension &
- Unemployed
- Power of Sale
- Disability

FARM OWNERS! Call NOW for FAST, EASY CASH!

CALL ME EVEN IF EVERYONE ELSE HAS SAID NO!

With over 200 lenders at my disposal I can get you a mortgage even with...

- Bad credit
- Poor cashflow
- Power of sale
- Mortgage arrears
- Tax arrears
- No financials

Most banks underwrite loans using standard commercial lending guidelines that don't make any sense for farms. Coming from a farm family, I understand the farming community.

Talk to me if you'd like to...

- Buy more land or new equipment
- Repair or construct new buildings
- Refinance your existing debts

I can offer qualified farmers...

- Up to 75% of full farm value
- Up to 30 year amortization
- Operating lines of credit

Send me a question online at

Hay Handler

HAY HANDLER INFO
& SALES CALL LLOYD
519-335-4135

You already know how weather-dependent making premium hay can be. It's the Hay Handler's job to work on your side, making the most of the haying windows the weather permits you. With it, you can merge invert, fluff or windrow your cut swaths.

But what sets the Hay Handler apart is the ease with which it handles hay pickup. With it, you can pick up a 10' wide swath of hay that has been laid out by your discbine and reduce it's drying time. With the hay handler, you can mow in the morning and do haylage in the evening.

Seed Transport Tube Conveyor

Gently handles fragile soybeans, peas, seeds and other delicate crops

**TESTED ON FOUR CONTINENTS.
NOW AVAILABLE IN YOUR POSTAL CODE.**

The 4700 Series is the culmination of the biggest R&D project in Massey Ferguson's history. Rethought and engineered from the ground up, then tested around the world. We have created a utility tractor that's as stout and heavy-duty as it is versatile. You'll feel the power with greater lift capacity and the ability to pull heavier implements. Yet it's nimble enough to maneuver through any operation. Hay, Dairy, Livestock, Municipal duty. It's ideal. Before you buy another tractor, come see the 4700 Series and decide for yourself.

See dealer for details. Warning: The Polaris RANGER and RANGER are not intended for on-road use. Driver must be at least 16 years old with a valid driver's license to operate. Passengers must be at least 12 years old and tall enough to grasp the hand holds and plant feet firmly on the floor. All SAS drivers should take a safety training course. Contact RDVNA at www.rdvnac.org or (549) 255-2560 for additional information. Drivers and passengers should always wear helmets, eye protection, protective clothing, and seat belts. Always use cab rears or doors (as equipped). Be particularly careful on difficult terrain. Never drive on public roads or paved surfaces. Never engage in stunt driving, and avoid excessive speeds and sharp turns. Riding and alcohol/drugs don't mix. Check local laws before riding on trails. ATVs can be hazardous to operate. Polaris adult models are for riders 16 and older. For your safety, always wear a helmet, eye protection and protective clothing, and be sure to take a safety training course. For safety and training information in the U.S., call the SVA at (800) 887-2887. You may also contact your Polaris dealer or call Polaris at (800) 242-3764. ©2014 Polaris Industries Inc.

VERTICAL WING LAND ROLLERS

- 22'-34' available
- 2 wheel design (8 bolt 14 ply 12.5L 16)
- 30 diameter rollers 3/8" thick
- 2" main bearings

X FOLD

- 30' - 47'
- 30" diameter drum
- 3/8 & 7/16 wall
- 2" HD ductile bearings

**3 OTHER MODELS AVAILABLE
- UP TO 65'**

CRIMPER ROLLERS

Smyth "CRV" series land rollers are similar to our "VS" series. Benefits of the crimp roller include:

- Cover crop management
- Ideal for organic farming
- Reduces the use of herbicides
- Prevents soil erosion
- Reduces water evaporation from soil
- Saves time

Specs:

- 12 blades per drum (7-3/4" spacing)
- 1/4" thick blades
- 30" diameter crimp rollers
- Replaceable 1/4" blades

**X-FOLD
(CRX MODEL) AND
CRS CAT II 3 POINT
HITCH MODELS
ALSO AVAILABLE**

Each section of the 12' Main is made up of (2) 6' pieces to form a chevron shape for easy rolling.

CONVENTIONAL SNOWBLOWERS

- 3pt Hitch Blower
- 4' to 10' sizes available

10' HDD INDUSTRIAL SNOWBLOWERS

Optional:

- Telescopic truck loading chute
- Rotating fan housing - side discharge
- Wing edges - fixed or hydraulic steering
- 1,000 RPM Flex hood
- Bolt on cutting edge
- Orbital motor hood turner

Specs:

- 20"x20" double augers
- 12"x36" fan hood turner

HFL FABRICATING

BIOMASS BUILDER

The Biomass Builder Row unit provides an economical way to add cover crops to your side dress application, for a timely, consistent emergence of your cover crops. It is also being used in relay cropping of wheat and soybeans.

Typical 28% application with coulter and knife. Change 28% knife to a dry fertilizer knife or to a 3rd row of cover crop. 2 or 3 rows of cover crop at changeable row widths. Adjustable depth control. Press wheels to preserve moisture in the summer. 30" clearance height.

■ Various applications: ex. strip till freshening. ■ Relay Cropping wheat and soybeans.

STORING YOUR TRACTOR FOR WINTER

BY DIEGO FLAMMINI | FARMS.COM

Taking the time to store a tractor properly in the winter can give farmers a leg up on spring tune ups, an industry rep said.

"I think a lot of it starts with your fluids when you put the tractor away until the spring," J.E. Cadle, marketing manager with Case IH, told Farms.com. "You'd want to make sure the fluids are changed and the oil is changed if it's due."

Getting a head start on any fluid changes can also save farmers time during the season.

Modern tractors are capable of operating for long hours before some items need to be checked.

"You can go up to 1,500 hours between transmission (fluid) changes, and up to 3,600 hours before needing to change coolants," he said. So, getting those levels right before you need to use the tractor is just a good overall practice."

The fluids themselves have changed to accommodate modern tractors, Cadle added.

"Every engine oil isn't the same now that we've gone to stricter emissions," he said. "What you're running in a tractor today likely isn't an oil you can run in an older tractor. We've got better additives and overall better products available."

One item that may go overlooked is tire air pressure.

Farmers should refill the tires prior

to storage and check the pressure again in the spring, Cadle said.

"I don't think a lot of people think about filling their tires back up with air," he said. "If tires sit with low pressure all winter it could be bad for the tires. You want to make sure the tires are full for the winter and brought back to operating levels in the spring."

When starting a tractor for the first time after winter storage, farmers can use their experience to determine if there's an issue with the equipment.

"Trust your gut when it comes to the sound and feeling of the tractor," Cadle said. "You know what your tractor should sound like and feel like when you're operating it. The electronics and things like that should get going fairly easily, but an odd vibration might tell you something needs to be addressed."

Farmers should try to keep batteries charged if possible and consult their owner's manual for more tractor tune up information, Cadle said.

BÜHLER MOVING FARM KING EQUIPMENT PRODUCTION TO CANADA

INDUSTRY NEWS

Bühler Industries has announced the closure of their Minnesota production facility and plans to shift production to their facility in Morden, Manitoba.

Bühler, the parent company behind brands Farm King and Versatile, is streamlining their North American operations by optimizing output at the Morden plant while capitalizing on the fluctuations in the exchange rate.

The Farm King equipment line, which is currently manufactured in Willmar, Minnesota and Vegreville, Alberta, produces augurs, mowers, bale carriers, snowblowers, compact implements, and tillage equipment. The facility in Morden will now take over production from the Willmar factory, which will close in early 2021.

The company already underwent some changes in production locations

this year when they consolidated their U.S. manufacturing into one plant at Willmar, which is now slated to close in the new year. This included moving their Fargo, North Dakota-based production to the Willmar plant. Bühler has been operating at the Willmar facility since 2011 after it bought an existing 135,000 square-foot facility that they currently use to manufacture Versatile sprayers and Farm King application equipment.

The company does not anticipate delays for their Farm King dealers in Canada due to the relocation. Bühler reported Q1 2020 revenue of \$49.2 million, down from \$57.3 million in Q1 of 2019. The company attributed lower sales to trade uncertainties, bad harvesting conditions, low commodity prices and bad crop yields.

HAPPY NEW YEAR

Happy new year for 2021
 Based on the past year, this is truly an understatement.. never before have we wished for a happy year ahead as sincerely. And yet we farmers did experience good crops and prices in spite of the virus. And the good news is that land prices have held steady, in fact, increased a bit. Right now I have serious buyers looking for dairy farms, cash crop farms, beef and pig farms. There is even renewed interest from UK and European farm buyers. Feel free to contact me for a confidential review of your needs regarding buying or selling farms
